PRINCIPAL'S MESSAGE

Dear Students,

As you move forward in your academic year you will realise that every day presents a new opportunity to learn, grow, and become a better version of yourself.

Among the many qualities that lead to success, Importance of time and discipline are the most valuable.

Time is a precious gift that, once lost, can never be regained. Therefore, learn to value every minute by being punctual, completing your work on time, and making the best use of each day. Wise use of time helps you achieve your goals and builds confidence.

Discipline is the foundation of a successful and meaningful life. It teaches us responsibility, respect, honesty, and self-control. A disciplined student not only performs well in academics but also develops good character and earns the trust and respect of others.

I encourage each one of you to follow school rules, respect your teachers and classmates, and maintain a positive attitude in everything you do. Remember, success does not come overnight; it is the result of consistent effort, discipline, and proper time management.

May you always strive for excellence and make your school, your family, and yourself proud.

With best wishes,

**Divya Srivastava
Principal**
